TWO-YEAR MBA (INTERNATIONAL BUSINESS) - FULL TIME

MBA(IB) 2024-26 Entrance Exam : [Admission updates](#) **New!**

IIFT2024 | Helpline Number : 09773698083

Development in the international marketing on the one hand and the consequential impact of the same on India's domestic market on the other, call for a professional approach and sensitivity to international business environment. The MBA (International Business) is a foundational course for developing a competent cadre of business executives to meet the country's growing requirements for training personnel in the field of international management. MBA (IB) is a six trimester general management programme with a focus on international business. The programme aims at providing a comprehensive coverage incorporating all the important areas and disciplines relevant to international business activities. The syllabi for MBA (IB) compares favorably with the syllabi of some of the world's best International Business Schools.

MBA (BUSINESS ANALYTICS)

MBA(BA) 2024-26 Entrance Exam

IIFT2024 | Helpline Number: 09773698083

Analytics and Artificial Intelligence are now widely used in all areas of a business. Organizations today operate in a dynamic business environment, which means they must respond to changing client needs. Companies seek to delve into not only current information about their customers, goods, services, and business processes but also historical data about their prior performances to gain insights and learn about previous trends and patterns. As a result, numerous sectors have adopted business analytics market software and solutions to analyze such trends, uncover new business possibilities, and design plans based on fresh insights. The two-year MBA (Business Analytics) is a degree program offered by the Institute, admission to which is made based on a competitive examination. Its focus is to familiarize the students with the increasing role of data and the insight it brings to decision-making at different levels of organizations.
